REPLY TO RESTRICTION REQUIREMENT

Mail Stop - _____
Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Replying to the Restriction Requirement mailed June 2, 2003, and in view of the requirement for Applicant to make an election even though the Restriction Requirement is traversed, Applicant hereby provisionally and respectfully elects Group II, presently claims 2, 4-13, 17-26, 31 and 55, with traverse and without prejudice. The reasons for traversal are set forth below.

As regards the species election, claims 16 and 35 have not been elected, and therefore Applicant understands that no species election is necessary at this time. If

Applicant misunderstands, then clarification is respectfully requested.¹

Returning to the Restriction Requirement and reasons for traversal, Applicant first notes that there is no lack of unity of invention. In the absence of evidence to the contrary, the single inventive concept is defined by claim 1, and thus PCT rules 13.1 and 13.2 are fulfilled and the Restriction Requirement is improper under PCT Unity of Invention rules. This is confirmed by what occurred during the International Preliminary Examination as noted in the IPER, first page, i.e. PCT/IPEA/409 (cover sheet), part 3, box IV which is **not checked** for lack of unity of invention.

This Restriction Requirement is thus in violation of the Patent Cooperation Treaty to which the United States is a signatory.

Moreover, even under U.S. law, the PTO has no authority to take the position that a single claim, e.g. one of claims 18-26 and 55, which claims are listed as being in all four groups, calls for more than one invention, except in the sense of those claims being generic and subject matter falling there within being species. The PTO has not taken this latter position because the requirement set forth on page

¹ As Applicant understands that no election of species is required at this time, Applicant also understands that there is no need to provide a listing of claims which read on any elected species.

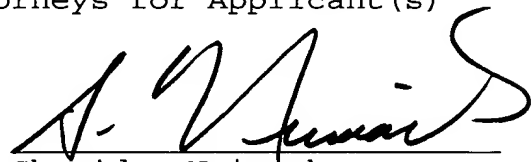

2 of the Office Action is a Restriction Requirement rather than an Election of Species Requirement. With respect, the PTO is **challenged** to provide any legal authority for such a restriction requirement, it being noted that 37 C.F.R. 1.475(d) says nothing about finding plural inventions in a single claim.

Applicant respectfully requests withdrawal of the improper Restriction Requirement and requests examination of all the claims on the merits.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
